Lander County Taxes

Assessor Hull has completed the assessment roll of Linder county for the year 1885. It will be seen by the comparison below that despite the universal ery of duil times that the aggregate 14 within \$500 of what it was last year, but it must also be borne in mind that the tax rate this year is legs by 30 cents on the \$100 than it was last year-the rate this year being \$3.60, while last year it was \$3 90 The total valuation for the last two years is as follows: \$1,870,790 01

THE EDUCATIONAL LANDS

A Good Move by the Board of Re wents.

The Carson Appeal, of Tuesday, says Yesterday afternoon the Board of University Regents, at their meeting, rused the price pur acre of school lands from \$1.25 to \$2.50. The bill passed last Winter in the interests of the cattlemen placed the figures at \$1 25, and since that time there has been an over-whelming rush of business in the Land Office The land ceded by the United States to Nevada for school purposes is so valuable that it will all be taken up in time at the maximum price, and the law provides that the Board of Regents have the power to regulate the price of this land and they have in the interests of schools decided to do so It may take longer for the land to be taken up, but in the end the schools will realize double the amount. This is a good move and the act of the Sould will be applieded by every citizen who has the

The policy of allowing such choice land to go for a song, when the cattlemen of Wyoming, Utah and Colorado are wild to secure grazing land, has been a mistaken one, the action of the Board comes none too soon

Oregon Cattle twoing bast

The greatest cattle shipping point on the Olegon Short Line is Ontario, in Baker county, Oregon which adjoins this county on the north, Arrangements have been made for the shipment of 27,000 head of cattle this Fall from Ontario east. It will take 1,400 cars and for the Chicago market. The first shipment was made last week

The C P Grazing Lauds

The Carson Appeal says

In another portion of the paper will be found the advertisement of the C P grazing lands, which are now offered by the company as being for sale or to lease on easy terms. They offer over four milhon of acres, divided into twentyeight langes, the smallest of which is 20,000 acres, and the largest 420,000 acres

The company have decided upon a change of policy regarding Nevada, and every endeavor will be made by the road to co-operate with the people in building up the interests of the Sinte This policy will be welcomed by the people who have in the past been led to look for nothing but rough treatment from the hands of the ana!

it is a so tled fact in the mais of business men au I capit discretible. Ne vada is determined to become the greatest cattle State to the West. It is by nuture adopted to the industry

The land is a mixture of mountain, valley and meadow land, where cattle can secure Winter and Summer ranges, and an abundance of grass and water. There are thousands of valleys in the mountains where cattle can winter suthout any attitional cars, and come out in good, healthy condition

The dry climate of the State cures grasses so that they are equal to hay, and the bunch grass and white sage are the best natural feed ever yet discovered

for range stock It is the aim of the company, through their agent, William H. Mills, to give such facilities and low terms to cattle-men that the cattle industry of Nevada will be fostered and encouraged Nevada beef is now commanding a higher price in San Francisco than California beef, and in ten years from now Nevada nught to be able to furnish most of the beef used on this coast

We hope also to see more attention will be paid by cattlemen to the importation of the roughbreds in this State. Up to the present time the ranges have been used principally for

the increase of scrub stock.

The time has arrived when the scrub stock must begin to make way for the thoroughbred, and the more thoroughbred stock this State has the larger will the fature margin of profit be. Inforthe future margin of profit be. mation regarding the ranges can be obtained of William H. Mills, Land Agent of the C P. R. R , San Francisco
